

## ASOP EU MEMBERS AND OBSERVERS

ASOP EU comprises a growing number of stakeholders - patient organisations, internet intermediaries, healthcare providers, pharmaceutical companies, and supply chain stakeholders. Your organisation may benefit from becoming a participant. The level of involvement depends on your willingness.

The coalition consists of a steering group with three work streams: public awareness (Buyers group), Intermediaries and Policy and Legislation. Much participation is via teleconferencing combined with key face to face meetings (approximately 3 per year). This is a vital area of activity to protect patients' safety from the rising tide of falsified medicines (counterfeit) across Europe and the World and progress can only be made by a concerted collaborative effort.

If you would like to join ASOP EU, please contact [mike.isles@asop.eu](mailto:mike.isles@asop.eu) or [Jim.Thomson@eaasm.eu](mailto:Jim.Thomson@eaasm.eu)
