

## ASOP EU Members and Observers

The Alliance for Safe Online Pharmacy (ASOP EU) consists of patient organisations, healthcare providers, pharmacists, pharmaceutical companies, distributors, wholesalers, parallel traders, and online intermediaries, such as logistics and postal companies, ISPs and platforms, search engines, and financial service providers that transact payments.

All participants are dedicated to increasing patient safety online and campaigning for tough action against illegal online pharmacies. Our goal is to make real and positive change to improve patient safety online, ensuring that Europe plays its important part in securing practical solutions to this growing global problem and progress can only be made by a concerted collaborative effort.

Partners are kept abreast of developments by newsletters and four quarterly teleconference jurisdictional meetings connecting all Members and Observers worldwide.

If you would like to join ASOP EU, please contact [mike.isles@asop.eu](mailto:mike.isles@asop.eu)
