Kimberlee Trzeciak, Former FDA Deputy Commissioner for Policy, Legislation, and International Affairs, Joins ASOP Global Board

Appointment strengthens ASOP Global's efforts to combat illegal online drug sales and protect patients from unsafe medicines

WASHINGTON, D.C. (November 3, 2026) – The Alliance for Safe Online Pharmacies (ASOP Global) today announced the appointment of Kimberlee Trzeciak to its Board of Directors. Trzeciak, who previously served as Deputy Commissioner for Policy, Legislation, and International Affairs at the U.S. Food and Drug Administration (FDA), is currently Vice President of Government and Regulatory Affairs at U.S. Pharmacopeia (USP). She brings nearly 20 years of experience shaping federal health policy, advancing bipartisan legislation and strengthening collaboration across government, industry and public health organizations.

During her tenure at FDA, Trzeciak oversaw more than 280 employees across five countries and led the agency's engagement with Congress, the Executive Branch, international regulatory counterparts and state, local, tribal and territorial policymakers. She also served as Chief Health Advisor for the U.S. House Committee on Energy and Commerce, where she helped shape legislative strategy, negotiate policy agreements and build bipartisan coalitions to advance public health priorities.

"Kimberlee brings an exceptional depth of experience navigating complex regulatory and legislative challenges, along with a strong commitment to protecting public health," said Leigh Verbois, Chair of the ASOP Global Board of Directors. "Her leadership at FDA and on Capitol Hill, combined with her expertise in building consensus across government and industry, will be invaluable as ASOP Global continues working to protect patients from unsafe medicines and illegal online drug sellers."

In her current role at USP, Trzeciak leads U.S. government and regulatory affairs efforts supporting the organization's mission to strengthen the supply of quality medicines and advance public health.

"I'm honored to join the ASOP Global Board of Directors and support its important work to protect patients from unsafe medicines and illegitimate online sellers," said Trzeciak. "Ensuring patients have access to safe, quality medicines requires strong collaboration among policymakers, regulators, healthcare stakeholders and industry partners. I look forward to working alongside ASOP Global to advance solutions that strengthen patient protections and promote confidence in the safety and quality of the medicines American families rely on."

Trzeciak's appointment comes as increasingly sophisticated illegal online drug sellers and evolving digital marketplaces present new challenges for patient safety. Her extensive experience in regulatory policy, legislative strategy and cross-sector collaboration will help inform ASOP Global's ongoing efforts to combat illegal online drug sales, strengthen oversight and raise awareness of the risks associated with unsafe online pharmacies.
